

Our events aim to provide every child with a positive experience of physical activity and competition in an environment where the young person's motivation, competence and confidence are at the centre of the competition.

This year all of our events will follow our new event themes; **For All**, **Targeted** & **Competitive**. These themes have been designed to ensure we provide events to benefit **all** young people. Please consider these themes and the intent of each event when selecting and preparing your young people to ensure they have a positive experience.

FOR ALL

These events are for everyone and are delivered in school. They focus on providing 60 active mins for every child whilst supporting their physical, social and emotional wellbeing.

TARGETED

These events target specific groups of young people who would benefit the most from having positive experiences of sport, physical activity and competition. The activities and outcomes are designed to reflect the young people's needs and motivations.

COMPETITIVE

These events are for pupils who are ready and prepared for competition and enjoy performing and competing against others. They provide the opportunity for competition in a positive and friendly environment where the focus is on enjoyment and supporting the wider development of young people as much as the outcome of the event itself.

Spirit of the Games Values

We strive to ensure that all of our events provide a rich and positive learning experience so we will be continuing to promote and recognise the 'Spirit of the Games' values and would like to encourage schools to make sure their children know what these values mean and why they are important in sport, school and everyday life. More information on the Spirit of the Games values and how you can promote them in your school can be found on our website here

www.scssp.co.uk/information/schoolgamesvalues/ along with Codes of Conducts for our events.

All of this year's competitions and events are outlined below. Please share these details with other staff and your head teacher and consider the cohort of young people in your school before deciding those you are going to enter. Full details can be found on the website <http://www.scssp.co.uk/events/category/competitions/>

Please visit www.scssp.co.uk and the events calendar competitions page to view further details of these events and to book your place.

All events including those that will be delivered in your own school must be entered online at www.scssp.co.uk where you will also need to enter how many teams you want to take part where relevant. Please be realistic when making your entries. The **deadline for entries** is a minimum of **28 days** before the competition date. Once you have submitted your online entry you will receive an automatic email back confirming your entry details. Please keep a record of your entry and the number of teams you have registered and make sure it goes in the school calendar.

If when entering you find that a **competition is full** please contact us sspadmin@combertonvc.org and ask to go on the reserve list. We always do our utmost to make sure all schools and teams can be accommodated, adding extra venues where necessary.

Schools will be emailed a minimum of 28 days before each competition and asked to **reconfirm their entry** and the number of teams entered. Following this further space may become available allowing any schools still on the reserve list to take part.

Final information/resources for all events will be emailed out 14 days beforehand and orders of play etc will then be created and all paperwork completed for the event. If for any reason a school is unable to attend after confirming their entry they should give as much notice as possible of this to the competition organiser. **Late withdrawal** from an event with less than 48hours notice will incur an **administration fee of £25**
